

SSSGA Executive Committee

Treasurer's Report

2/24/2009

1. Current Balance in the General Account is \$43,948.82. This amount includes \$10,775.39 donated last year by the Soil Classifiers of GA and earmarked/restricted for education use only. The amount of unrestricted money available in the General Account is \$30,318.43. A transaction history for 2004-2009 is attached for detail reference.
2. Pre-registration receipts for the annual conference were \$6,055 from 70 attendees excluding \$2,365.00 of legislative fund contributions included in registration checks that were transferred to the Legal Account. \$600 of the pre-registration money is to be returned because it includes annual dues paid by 15 of our members before they were notified it would be waived for this year.
3. Current balance in the Legal Account is \$5,773. Widener and Associates has agreed to a \$10,000 fee for 2009 and we have paid for half of it leaving a balance owed of \$5000. As of this date we have sufficient funds.
4. The 2009 Legislative Fund Drive has raised \$6,300.00 with 29 consultant soil scientists and 5 classifiers-in-training participating to date. We began the drive with \$4,473.00 in the account in November of 2008. A transaction history for 2004-2009 is attached for reference as well as a contribution summary for 2009.
4. Donations of \$3,000.00 to the Envirothon, Soil Judging, and the Gwinnett Heritage Education Center (GHEC) have been committed by the executive board, but are not reflected in the current balance.

Respectfully Submitted,

Philip D. Freshley
Treasurer
